Module 1: Get Started

Required Equipment

Being successful in this course begins with the right equipment. For this course you will need:

- Laptop (Mac or Windows) with 8 GB RAM and 64-bit dual processor

Note: You cannot use Linux in this course.

If you are unable to meet these requirements, please contact your Student Success Manager.

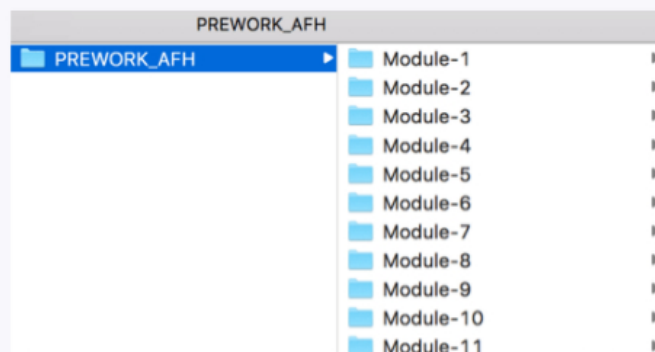

How to Submit Prework

You will submit your completed assignments on [Bootcamp Spot](#), which you'll be given access to after you enroll in the course. Follow these steps to submit your assignments.

1. Create a local folder on your computer named PREWORK_{INITIALS}, e.g., PREWORK_AFH.

1. Create a subfolder for each module so that your folder structure looks something like this:

1. When you complete an assignment, save it in the appropriate subfolder. In some cases, you may need to copy multiple files into the subfolder.
2. Create a [Google Drive](#) account if you don't already have one.
3. Select **New** and then **Folder upload** to upload your local folder to Google Drive.

Note: This can be done after you have completed all prework assignments.

Folder upload

Next »

1. Right-click the folder and change the sharing settings to **Anyone with the link can edit**.

1. Copy the folder link.
2. Log in to Bootcamp Spot and find the prework assignment associated with your class.
3. Click on the assignment and paste the Google Drive link.

And that's it! You're ready for Module 2!
